

A3 PROJECT CHARTER: Mooadmin Core UI

Date: <date>
Sponsor: <sponsor>

Mooadmin Core UI merupakan shared library tambahan bagi Core UI, yang fokus terhadap view seperti Form, Table, Report & Chart.

CONTEXT / ISSUES

Issue

- Model Mapping antara model Web Api dengan model di client App, merupakan salah satu penyebab lambatnya tahap implementasi Admin CMS, jika dihandle oleh Junior Programmer.
- Pattern code yang bervariasi sesuai dengan skill level Programmer.

GOALS

- Mempercepat proses implementasi Admin UI, terhadap seluruh level programmer
- Meningkatkan produktivitas Programmer FrontEnd.

SCOPE (IN BOUNDS)

Mengembangkan extend component Core UI, yang meliputi:

- Model + Active Record
- Form View
- List/Table View
- Report View
- Chart View

SCOPE (OUT OF BOUNDS)

- Report View: Report as PDF
- Graph View: Exclude Histogram type

CUSTOMERS/STAKEHOLDERS

- MOONLAY FRONTEND DEVELOPERS

TEAM MEMBERS

- Team Leader:
 - Sjafrudin Afandy Lamusu
- Team Members:
 - Oriani Sihalo
 - Andrey Sembiring
 - Ronald Josua Hutajulu
 - Felix Siburian

CUSTOMER REQUIREMENTS (CTQ)

See Mooadmin Core UI Documentation 1.0

VISION OF SUCCESS

- Diharapkan dengan menggunakan package Mooadmin Core UI. Implementasi Admin CMS dapat dilakukan dengan cepat dan mudah.
